Tria Federal (Tria) is the premier middle-market IT and Advisory services provider delivering digital transformation solutions to Health, Civilian, and Defense agencies across the federal sector, including nearly two decades of experience supporting the Department of Veterans Affairs (VA). With a future-forward vision and a mission rooted in service, we bridge capability gaps to help federal agencies ensure that they work faster, grow smarter, and stay nimble in the face of change.

Tria is the product of three established industry leaders, Federal Advisory Partners (FIAIP), Favor TechConsulting (FTC), and Universal Consulting Services (UCS), that combined in 2023 to form a new powerhouse solving the government's most pressing challenges. Today, our extensive domain experience and prior track record of providing enterprise technical solutions are supercharging organizational governance, business processes, and technology-driven solutions to transform government.

## We turn possibility into **capability** for VA

Tria Federal is a premier technology and advisory partner of the Department of Veterans Affairs. Our best-in-class, multidisciplinary team provides comprehensive, end-to-end IT and business management consulting services throughout the digital transformation lifecycle. We build with integrity and trust by engineering intelligent systems using emerging technologies and solutions applied to VA's technology and operational challenges.

| <b>Digital Transformation</b>                         | <b>Results Management</b>                     | <b>Financial Management</b>                   |
| <b>Healthcare Interoperability &amp; Optimization</b> | <b>Claims Processing &amp; Reimbursement</b>  | <b>Cost Accounting &amp; Revenue Recovery</b> |
| <b>Technology Enablement &amp; Modernization</b>      | <b>Software Development &amp; Integration</b> | <b>Data Analytics &amp; Reporting</b>         |

Tria is proud to have a long history supporting VA, establishing deep connections throughout the Veterans Health Administration and Veterans Benefits Administration. Over the last two decades, we have held more than 120 VA contracts, and we look forward to many more years serving our nation's veterans.
